

FILTRON SERIES

HIGH FLOW MEDIA FILTER

DESIGNED TO LAST

FILTRON SERIES

HIGH FLOW MEDIA FILTER

Fibreglass Winding
for exceptional strength

High Flow Underdrain
ensures efficient backwashing

Six Function Multiport Valve

The Filtron range of media filters are manufactured using high grade fibreglass and resins utilising the latest engineering techniques, ensuring high quality and superior strength for long life and durability.

The spherical shape and fibre winding pattern give the filter exceptional strength and resistance to chemicals and corrosion. Complimented with a six function multiport valve the Filtron filter will give years of trouble free filtering.

Features

Fibreglass Winding for Exceptional Strength

Clamp Band 40mm Multiport Valves for Easy Installation and Alignment

Six Function Multiport Valve Complete with Quick Connect Barrel Unions

High Flow Underdrain Ensures Efficient Backwashing

Easy View Backwash Sight Glass

Long Life Oil Filled Pressure Gauge

Applications

Domestic Swimming Pools

Commercial Swimming Pools

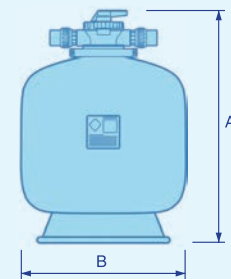

Spa Pools

Water Features

Five Year Warranty

Full Five Year Tank Warranty

12 Month Warranty on MPV and Drain Assembly
